- Rotating Pen Attachment
- Range of jigs
- Range of depth regulating noses
- Chip collector
- Dedicace™\*

\* Factory installed accessories compatible only with GravoStyle™

### VERSATILE

Working with a separate computer or completely autonomous with the One Touch Pad, the M40 can engrave a wide variety of materials such as metal, plastic, wood, glass and more. With an array of factory installed accessories, the M40 can take shape for any engraving need.

### EXCEPTIONAL SOFTWARE

The M40 is powered by GravoStyle™ software. This unique software platform concentrates Gravograph engraving expertise to offer you full support, whatever your engraving application. The software synchronizes your M40 and its accessories, creating a powerful production team.

The M40 ABC's user interface is included in the solution, requiring no additional computer. It's software is supported by a tactile screen allowing the design of plates with lines of text, logos and drawings. The files are saved on an SD card.

### PERFORMANCE

The M40 combines Gravotech's engraving and build quality with ground-breaking productivity. The high powered 50W, direct-drive spindle is great for even metal. No matter the shape engraving has never been faster, thanks to automatic engraving depth adjustment.

### ERGONOMICS AND DESIGN

The M40 series features an open working area giving the operator easy access to the job and materials. The M40 design features a depth nose allowing for constant engraving, particularly on uneven surfaces. Simulate your engraving job before you engrave with the integrated laser pointer. Complete range of accessories and jigs are available for the engraving of any item.

## APPLICATIONS

Since 1938, Gravotech brands have been global leaders in the design, manufacturing, sales and support of innovative solutions for engraving, marking and artistic modeling.
